

COOLING SYSTEM STOP LEAK

DESCRIPTION

TREBLEX Cooling System Stop Leak provides temporary repair of radiator leaks and seepage from radiator hoses and gaskets, and reduces loss of coolant from cooling systems.

Sizes available: 20L, 200L, 1000L

FEATURES

TREBLEX

- Non-flammable.
- Specially formulated.
- Compatible with all coolants.
- Biodegradable.
- Environmentally friendly.

APPLICATIONS

TREBLEX Cooling System Stop Leak provides temporary repair of radiator leaks and seepage from radiator hoses and gaskets, also reduce loss of coolant from cooling systems. Contains lubricating heat-sensitive polymers and is free from abrasive mineral fibres.

DIRECTIONS

Add about 250ml Cooling System Stop Leak to the radiator when it is safe to do so. Ensure adequate coolant is present. Drain and flush to cooling system thoroughly when permanent repairs to leaks are undertaken and refill with appropriate coolant.

SAFETY

Keep out of reach of children. Read Material Safety Data Sheet before use.
