

PARTS WASH

DESCRIPTION

TREBLEX PARTS WASH is a combustible hydrocarbon specifically formulated for use in degreasing and parts bath applications. It can also be used as a carrier fluid for non-regulated products. Treblex Parts Wash is a wide boiling range, slow evaporation solvent.

Sizes available: 20L, 200L

FEATURES

Treblex Parts Wash can be included in any formulation where a cost-effective degreaser is required. It is miscible with all other organic solvent.

- Mid-range aromatic content
- Slow evaporation rate
- Non-regulated for storage and transport
- Has good solvency for greases, oils, waxes and general dirt
- Versatile- Treblex Parts Wash can be included in any formulation where a cost effective degreaser is required. It is miscible with all other solvents.
-

Typical Characteristics:

Appearance:.....clear, pale yellow liquid
 Specific Gravity:.....0.82
 Flash Point:.....61°C[PMC]
 Boiling Range:.....150-280°C

APPLICATIONS

When used as directed Treblex Parts Wash can be used in the following applications: Ideal as a safer parts Wash, where a safer solvent is desired for duty of care reasons.

- Engine re-conditioners
- Auto Detailers
- Electric Motor re-winders
- Transmission components

SAFETY

Keep out of reach of children. Read Safety Data Sheet (SDS) before use.
