

# TREBLEX

Solutions for industry

## PRODUCT DATA SHEET

# AUTOSOLV BRAKE & PARTS CLEANER

### DESCRIPTION

TREBLEX AUTOSOLV is a wide boiling range, rapidly evaporating solvent. It is highly flammable. Autosolv performs well in situations requiring a solvent that evaporates quickly with no residue.

### APPLICATIONS

When used as directed TREBLEX AUTOSOLV can be used in the following applications:

- Ideal for use as a safer Brake & Parts Cleaner.
- Ideal for cleaning automatic transmission components.
- Panel beaters as a pre-solv.
- Auto Detailers.
- Engine re-conditioners.
- Electric motor re-winders.
- Anywhere a safer solvent is desired for Duty of Care reasons.
- Can be used as an electrical cleaner in unpowered equipment only with extreme care taken because of the flammability of this product.

### FEATURES

Safer to use than other solvents with a higher N-Hexane level.

- A low flash point solvent that evaporates quickly.
- A medium solvent compared with more aggressive solvents, it is unlikely to affect the surface of most materials.
- Treblex Autosolv has a very high solvency of greases & oils. It can be used to clean surfaces prior to painting.

Versatility – Treblex Autosolv can be included in any formulation where speed of evaporation is required and will combine well with other organic compounds.

### TYPICAL CHARACTERISTICS

Specific Gravity.....0.68g/ml  
Flash Point..... -29°C  
Boiling range..... 50-65°C

Package sizes:20L and 200L

Code: TASLV

SAFETY: Please read SDS sheet before use. Keep out of reach of children.

Information contained herein is accurate at the time of writing this document. However specifications change from time to time, please ensure that the specifications meet your requirements.
