

# BARRIER CREAM

## DESCRIPTION

**TREBLEX** Barrier Cream is made for use in workshop areas or around the home for protection of the hands. Contains purified water, lanolin, dimethicone, emollients, natural oils and sanitizers.

Sizes available: 500ml, 5L

## FEATURES

### TREBLEX

- Sanitises.
- Biodegradable.
- Environmentally friendly.

## APPLICATIONS

TREBLEX Barrier Cream is designed for use in the workshop and industrial areas or in the home for the protection of hands against drying, cracking and soiling. Barrier Cream will also ease the cleaning of dirty hands.

## DIRECTION

Apply Barrier Cream liberally to the hands at the start of work period, paying particular attention to the fingers and fingernails. Allow to dry. Reapply after hands have been washed or as required.

## SAFETY

Keep out of reach of children. Read Safety Data Sheet (SDS) before use.
