

HEAVY DUTY WD LUBE

DESCRIPTION

TREBLEX Heavy Duty WD Lube Bulk is a unique multi-purpose anti-corrosion lubricant designed to displace moisture, penetrate rusted parts, lubricate, stop squeaks, clean surfaces and protect from corrosion. **Treblex** Heavy Duty WD Lube also works effectively as a chain lubricant. It maintains machine-finished surfaces moisture and corrosion free. It does not dry out, become sticky, or wash off with water. This product contains no silicones, kerosene or acid forming ingredients. It has numerous uses in Automotive and Marine maintenance, transport, engineering, industrial and commercial equipment.

Sizes available: 5L, 20L, 200L

FEATURES

- | | |
|-------------------------------|---|
| 1.pH neutral | 7.Contains no silicones |
| 2.Electrically non-conductive | 8.Moisture eliminator for wet equipment |
| 3.Non-corrosive | 9.Protective film seals out moisture |
| 4.Non-toxic | 10.Penetrant-frees rusted or corroded parts |
| 5.Non-staining | 11.Superior penetrating power |
| 6.Non-flammable | 12.maintains machine finished surfaces moisture & corrosion free for long periods |

APPLICATIONS

- Will not harm metals including (stainless steel, aluminium, copper, brass and ferrous alloys), plastic, enamel, laminex, fibreglass, painted surfaces, neoprene seals, electrical insulators and vinyl.
- Designed for use in automotive, marine, transport, engineering, industrial and commercial equipment.
- For normal applications spray or brush onto area to be treated.
- Items such as rusted nuts and bolts may be soaked for as long as required.

SAFETY

Keep out of reach of children. Read Safety Data Sheet (SDS) before use.
