

TAPPING COMPOUND

DESCRIPTION

TREBLEX TAPPING COMPOUND is a novel lubricant with special surface modifying and friction reducing properties. It is designed for use in machine shops, for general drilling, tapping, punching, threading and broaching, and for low or high-speed lathe work. By reducing friction, Tapping Compound reduces cutting tool temperatures and extends tool life substantially.

Sizes available: 500ml, 20L

APPLICATIONS

TREBLEX TAPPING COMPOUND is suitable for use on bits, blades, lathe tools and hole saws. Apply neat to working surface.

SAFETY

Tapping Compound is not classified as hazardous. Avoid contact with skin and eyes. Keep out of reach of children. Harmful if swallowed. Use with adequate ventilation. Read Material Safety Data Sheet before use.
